**TOILET TRAINING:** Gov. Neil Abercrombie, who worked as a janitor at Mother Rice Preschool in the 1960s, took time out Thursday for a photograph in a bathroom that he used to clean. Abercrombie appeared at the Moiliili school to speak at the groundbreaking for the \$3.2 million Center for Early Education and Development. The Kindergarten & Children's Aid Association Preschools of Hawaii will offer training in early childhood education and professional development for teachers at the facility, to be completed in August.
